

SOF at Aero India 2025

GARUDs

PARA SF with LSV

The most awaited air show i.e. Aero India 25 finally commenced and culminated at Yehalanka AFS, Karnataka in February. As Asia's premier airshows, it truly presented the might of Indian Armed Forces and defence manufacturing capabilities. The vast line-up of aircraft and other equipment were a treat to the millions of eyes present at the airbase during the 5 days long airshow. While most of the people were there only to see the two rivals aka the Su-57 Felon and the F-35 JSF, I was taken aback by something very different or off the chart I would say!

For a young SF (Special Forces) geek who aspires to be one of them one day, what else can be better than witnessing SF troops from up and close? The airshow did just exactly that, giving me the opportunity to meet and interact with multiple Special Forces officers and men, getting insights and motivation on how to join the Special Forces and as to how I should follow the path with passion rather than seeing this as a tough challenge.
